Experience

Software Engineering Co-Op, Camgian Microsystems — 2017-Present

Worked with senior engineers and the head of quality assurance to write software tests, patch various bugs, and clean up repositories. Extensively documented various products to be used by customers in the field.

Graphic and Motion Design Intern, Hail State Productions — 2015-Present

Collaborated with a team of students, producers, and assistant athletic directors to create video and motion graphic content featured across Mississippi State Athletics.

Intern, Will Anderson Design — 2016

Completed graphic design projects to the satisfaction of my supervisor and clients. Submitted work directly to the owner and operator of the company.

Involvement

Mississippi State Student Association — 2016-Present

Served as a Senator for the College of Engineering and on the Executive Council as the Director of Marketing. Directed a team of designers, photographers, and videographers to creatively market Student Association offerings to the student body. Current Chairman of Academic Affairs Committee.

Beta Upsilon Chi Fraternity — 2015-Present

Served as Social Chair in 2016 and served the campus and community as an active member by volunteering at a children's home and completing various service projects.

Education
